OUR VISION

As Forces Chemical, with our domestic fund and knowledge, we adopt the perfectionist approach as our basic principle. as we carry through the expectations of our customers.

OUR MISSION

Conscious of community responsibilities, within the framework of innovative and effective management mentality, to take customer satisfaction to the highest level, by providing value both to our customers and employees.

OUR VALEUS

Without compromising quality, By following technological developments closely, alongside constant advancement and innovation, qualified in both professional and technical field, we continue to go forward with environmental awareness by reflecting teamwork with our professional team and by putting customer satisfaction into the foreground.

Forces chemical

About **FORCES** Chemical

FORCES Chemical Industry and Trade Limited Company is based in Izmir. It produces industrial cleaning, maintenance, and hygiene products within its own structure. Established with %100 domestic funds, FORCES Chemical has taken its own place among Turkey's conversant and reputable establishments. Its sales representatives specialized in their fields, offer solution partnerships by providing face-to-face customer visits and by practicing demos. Furthermore, with the services they provide after their sales, they provide product instructions for the purpose of correct use of products and to prevent waste.

With its expert team and powerful research and development, Forces Chemical practices studies to offer domestic products to the national economy instead of using imported products. Forces Chemical products offer the best service in every mass consumption field such as government agencies, factories, mines, hotels, restaurants, hospitals, and laundromats. Since Forces Chemical thinks about not only today but also tomorrow, it produces eco-friendly products with environmental awareness. As it fulfills its part in providing employment and contributing to the rapidly expanding national economy, It also adopts representing our country in the best way possible on international trade platforms with its export goals, as its basic principle.

Forbit Industrial Skin Cleaning

Product Description: Used in the cleaning of heavy dirt, oil, grease, soot, and soot stains. Since it contains glycerin and moisturizer, it is not harmful to human skin. Contains natural fruit fragrances. Concentrated, it transforms into the gel form after dilution with water. **Areas Of Usage:** Production fields using turning and welding, vehicle services, paint factories, and construction sites.

Force CRH EX Mortar and Concrete Dissolvent

Product Description: Thanks to its extra strong formula, it solves stubborn lime, cement depositions, blackened organic dirt, and post-shipment cleaning problems. Cleans stubborn lime and cement and Surface without abrasion and wear, without needing to scraping with tools. It is an effective product used especially in the construction and ship sector, and in the transport sector and mortar trucks to clean cement dust residues before and after storage.

Forbit Gel, Industrial Skin Cleaner In The Gel Form

Product Description: A gel cleaning product effective in cleansing heavy oils in the hands thanks to its formula containing lemon peel extract. It is granular and has a cleansing effect on all pores on the skin. Effective in stains such as heavy grease, oil, ink stains, tar, and paint. **Areas Of Usage:** Vehicle services, paint factories, Workshops, printing houses.

Forge Ang Industrial Skin Cleaner

Product Description: It is an industrial skin cleaning product that cleans oil, heat, soot, and various dirt from hands. It moisturizes the skin while cleaning it. Its foam is adjusted. It is easily rinsed and economical.

Areas Of Usage: Production facilities using turning and welding, vehicle services, paint factories, construction sites.

Force Flott Lime and Sediment Dissolvent

Product Description: An acidic product that safely removes lime residues and rust thanks to its special formula. It does not cause abrasion on many surfaces including copper and aluminum under appropriate dilution conditions thanks to the protective inhibitor it contains. It does not cause clogging by absorbing lime in ionized form. It is used in cooling and heating systems and steam boilers to dissolve lime, moss, rust, stains, and sediments that occur on surfaces where water passes through. **Areas Of Usage:** In the cleaning of heating and cooling systems, on all unpolished floors, in lime, sediment, and rusty areas.

Force Flott EX Lime Residue and Rust Dissolver

Product Description: It is an acidic product that safely removes lime residues and rust with its extra-strong formula. It does not cause abrasion on many surfaces including copper and aluminum under appropriate dilution conditions thanks to the protective inhibitor it contains. It does not cause clogging by absorbing lime in ionized form. It is used in cooling and heating systems and steam boilers to dissolve lime, moss, rust, stains, and sediments that occur on surfaces where water passes through.

Areas Of Usage: In the cleaning of heating and cooling systems, on all unpolished floors, in lime, sediment, and rusty areas.

Force Flott New Lime and Sediment Dissolver

Product Description: It is an acidic product that dissolves lime residue and rust without abrasion, thanks to its extra powerful formula. It can be used on surfaces such as chrome and aluminum. It is suitable for closed-circuit system.

Areas Of Usage: It is used in cooling and heating systems and steam boilers to dissolve lime, moss, rust, stains, and sediments that occur on surfaces where water passes through, by ionizing. It is used in chrome hotel equipments and ice machine cleaning.

Force In Car Brushless Car Washing Shampoo

Product Description: It foams a lot and covers the entire surface with foam. Without the need for a brush or sponge, it has the ability to clean gently without damaging the surface. In addition, it provides a special shine to your vehicle as it contains a special polish. It has the feature of effectively cleaning bird droppings, fly residues, thin oil layers, and dried mud stains.

Areas Of Usage: It is used in the whole automotive industry.

Force Air Conditioner Cleaner Serpatin Cleaner (ECO)

Product Description: It is a concentrated product that cleans oxidized, oiled, and contaminated aluminum components and equipments and makes them shiny again.

Areas Of Usage: It is used in engine blocks, air conditioners, unpainted aluminum components, trailers, ventilation pipes. It is widely used in air conditioner cleaning by air conditioner authorized services in factories, in plazas, sites, business centers that provide central heating cooling. If the air conditioner cores are not cleaned, cooling and heating will not be at the desired level, and bringing it to the desired temperature consumes more energy. This increases energy consumption. For this reason, authorized services or technical personnel in charge of the enterprises periodically clean the cores. It successfully cleans the oil of the paddle boxes of the food production facilities and restaurants and oil residues outside the aluminum silo and production boilers of the factories that produce vegetable oil.

Force Matic LF Foam Controlled Alkaline Oil Dissolver

Product Description: It is an effective non-foaming cleaner, developed especially for pressure washers. It can be diluted with both hot and cold water. It is suitable for use in any degreasing process where foam is not required. It contains corrosion inhibitor.

Areas Of Usage: It is suitable for use in Factories, workshops, repair shops, and water-resistant surfaces such as metal, concrete, and plastic.

Force Metal Protector Mold Protector Oil

Product Description: It is a specially developed oil that protects metal surfaces and coated surfaces against rust and corrosion during shipments. It repels water and moisture. It forms a 0.3 micron protective oil by entering between water and components. It is successfully applied in the temporary storage of the wetted components, in the assembly, and in the protection of components in the production from corrosion.

Areas Of Usage: It is suitable for use on all kinds of metal surfaces.

Force Myh Anti Foam Foam Controlled Acidic Metal Surface Cleaner

Thanks to its foam-controlled formula, it cleans rust and oil from the metal surface in one step in processes where foam is not desired. Abrades microscopically and to ensure adhesion of the paint and coating to the floor, leaves a phosphate layer on the surface. In this way, it increases the quality of the paint and coating.

Usage: It is diluted with water in a ratio of ? to 1/15, depending on the density of rust and oil, and applied by wiping, dipping, and spraying method.

Force MYH Pre-Paint and Coating Metal Surface Preparer

Thanks to its special formula, it cleans rust and oil from the metal surface in one step, abrades microscopically, and to ensure better adhesion of the paint and coating to the floor, leaves a phosphate layer on the surface, thus increasing the quality of the paint and coating.

Usage: It is diluted with water in a ratio of ? to 1/15, depending on the density of rust and oil, and applied by wiping, dipping, and spraying method.

Force Lox Acidic Cleaning Liquid

Product Description: Very powerful acidic cleaner. It is a strong dissolver for welding, heat treatment, and all kinds of corrosion, rust, and weld tarnishing on the stainless steel surface. It is not flammable. Does not cause discomfort to the user.

Areas Of Usage: Heavy industry, automotive group.

Force MIN Mineral Sediment and Rust Dissolver

Product Description: It is effective in the cleaning of heavy stains. Dissolves mineral sediments, silicon residues, and rust stains that occur where water accumulates.

Areas Of Usage: Heavy industry, paint industry, metal industry, hotels, etc.

Force Sol Water-Based Industrial Oil Dissolver

Thanks to its special formula, it emulsifies the oil and removes it from the environment. It is an industrial strong oil solvent used in cleaning the factory floors, cleaning oil and dirt on machines and benches.

Force In Airdrain Biologic Manhole Odor Remover

Product Description: It is used in places that cause bad odor due to reverse winds such as manholes, washbasin, WC, kitchen expenses. It stops microbial growth with its powerful disinfectant effect, its bad odors are masked thanks to the strong neutralized essence and a pleasant orange flower scent spreads to the environment.

Force GLZ OF Dirt and Glaze Dissolver

Product Description: Dirt and glaze remover product formulated especially for crystallization glaze. It can be used without rinsing. Quickly, easily removes dirt and glaze without rinsing. Provides 50% time saving compared to other glaze remover products. It is a high alkaline product.

Areas Of Usage: Used on all polished surfaces and heavy dirt. It is used in the cleaning of tools and equipment that give effective results on all kinds of surfaces.

FORCE TRW ANTI FOAM Foamless Garbage Container Cleaner

Thanks to its foam-controlled formula, it can be used in automatic garbage container washing vehicles, garbage vehicles, garbage containers, and landfills. It does not damage the surfaces used. It provides a deep cleaning by eliminating the bad odors caused by the garbage residues.

Force Market Place Washing Product

It is a concentrated product used in many municipalities for the neat cleaning and purification of marketplaces. It is used in the cleaning of bad odors and contamination caused by vegetables and fruits after the market. At the same time, thanks to its deodorizing feature, it leaves a pleasant odor to the area and provides hygiene.

Force In Drain Clogged Drainage and Pipe Dissolver

Product Description: It is a product that quickly dissolves and dissolves hair strands, food waste, oil, dried soap residue, and other organic materials.

Areas Of Usage: It is used in all clogged drains and pipes.

Force OFFGum and Glue Remover

Thanks to its active ingredients and natural solvents, it rips gum, and glue residues from the surfaces. Thanks to its special formula, it is suitable for use on all kinds of surfaces such as carpet, sofa, leather, plastic.

FORCE ANTI PAINT Acidic Paint Solvent

Product Description: It is a specially formulated product to remove even the hardest paint stains. It provides easy and fast cleaning thanks to its special formulation. It evaporates fast. It does not leave scars or stains.

USAGE AREAS: It is used to clean paint on all kinds of painted surfaces.

Force COSMO Heavy Oil, Grease, Tar Dissolver

Product Description: When diluted with water, thanks to the light viscous emulsion it creates, it clings to vertical surfaces and stays on the surface until it absorbs oil and dirt. It provides effective cleaning without the need for mechanical effect. It does not contain acid and alkali substances. No smoke is released during application.

Areas Of Usage: In construction machines, engine blocks, asphalt plants, and all kinds of machine parts.

Force Silicone Mold Separator

Thanks to its special formula, it is used to separate the plastic from the mold in plastic injection machines. It provides a smooth surface formation by increasing the printing speed.

Usage: It is sprayed directly on the mold surfaces.

FORCE SLV 01 Chlorinated Solvent Complex

Due to its fast volatility and its strong evaporation feature, It can be safely used in degreasing before painting in the metal sector, in the furniture sector, in edge band cleaning, in the textile sector for stain removal. Usage: It is used directly. It is applied to the surface by spraying and wiping method.

FORCE SLV 02 Electrical Compound Cleaner

Thanks to its special formula, it is a non-flammable and insulating cleaner used in cleaning electric motors and components, cleaning electrical panels, cleaning contractors, removing moisture from the surface. It evaporates quickly on the applied surface and does not leave residue.

Usage: It is applied directly. The product is used by spraying the surface.

Force SLV 03 Mechanical Parts Cleaner

With its volatile feature, it can be safely used in degreasing before painting in the metal industry, in the furniture industry, in edge band cleaning, in the textile industry for removing stains.

USAGE: It is used directly. It is applied to the surface by spraying and wiping method.

FORCE SLV 04 Degreaser Solvent

With its volatile feature, it can be safely used in degreasing before painting in the metal industry, in the furniture industry, in edge band cleaning, in the textile industry for removing stains. It also provides easy cleaning of mechanical parts from oil and grease.

Usage: It is used directly. It is applied to the surface by spraying and wiping method.

Force SLV 05 Mechanical Precision Compound Cleaner

It is used for cleaning sensitive mechanical parts. It does not cause corrosive effect and abrasion on the applied surface. It does not damage the rubber material. It can be used safely in the cleaning of textile machines and process lines.

Usage: It is used directly. It is applied to the surface By spraying and wiping method.

Force SLV 06 Electronic Circuit Protection Spray

Thanks to its special formula, it creates a transparent layer on the card surface. It protects the electronic card against humidity and moisture.

Usage: It is used by spraying method directly to the surface.

Force SLV 07 Electrical Equipment Protector Compound From Moisture

Thanks to its special formula, it protects the applied surface from moisture and corrosion by covering it with a transparent layer. It prevents short circuits caused by moisture in electrical Compounds.

Usage: It is used by spraying method directly to the surface.

FORCE SLV 08 Cleaner For Brake Parts and Pads

Thanks to its strong formula, it can be used safely in the cleaning of automotive, heavy vehicles, and construction machines.

Usage: It is used by spraying method directly to the surface.

Force SLV 09 Cleaner For Electronic and Electrical Equipment

Thanks to its special formula, it enables electronic cards to be purified from oil and dirt. While cleaning, it never damages the structure of the cards. Thanks to its fast volatility, it instantly removes dirt from the surface.

Usage: It is used by direct surface spraying method.

Force SLV 10 Non-Flammable Cleaning Solvent

With its volatile feature, it can be safely used in degreasing before painting in the metal industry, in the furniture industry, in edge band cleaning, in the textile industry for stain removal. It has different essential oil options.
Usage: It is used directly. It is applied to the surface by spraying and wiping method.

Force SOL MRT Water-Based Low Foam Alkaline Oil And Resin Cleaner

Thanks to its special formula, it emulsifies the oil and removes it from the area. It is an industrial strong oil solvent used in the cleaning of factory floors, oil, and dirt on machines and benches. It does not damage painted surfaces. It is effective on tarred oils.
Usage: It is used by spraying or wiping method by diluting with water in the ratio of 1/5 to 1/50 depending on the density of the dirt.

FORCE SPR AF Solvent-Free (Foam Controlled) Degreaser

Thanks to its foam-controlled formula, it easily dissolves fat, blood, and dirt in food facilities. It does not contain odor and solvent. It cleans the dirt on PVC epoxy and leather without damaging the surface and paint. It is effective in cleaning animal and vegetable oils.
Usage: It is diluted with water in a ratio of 1/5 to 1/30. It is applied to the surface by spraying or wiping brushing method.

FORCE WELD Concentrated Gas Welding Anti-Stake Gel

It prevents welding burrs from sticking to the surface in gas welding processes. It has no corrosive effect, does not release harmful gas during welding, and does not contain grease and liquid.

Usage: It is diluted with water in a ratio of 1/8 to 1/15. The product is sprayed to the surface from a distance of 30 cm before welding.

Force Moss Preventer For Ornament Pools

It is used for disinfection purposes in pool water. It prevents the formation of bacteria, algae, and microorganisms.
Usage: It is added in a ratio of 0.5 lt to 1 lt of 100 M3 of water

FORCE NSH H1 Approved Suitable For Food Contact High-Performance Grease in Liquid Form

It is a high-performance grease with high mechanical stability, suitable for food contact, resistant to water and heat. With its anti-abrasion structure, it is suitable for all greasing processes in food machines.
Usage: It is applied directly to the surface by spraying and application method.

Forceter Penetrating Loosener

With its strong formula, it quickly removes the rust of rusted, stuck bolts and nuts, rusty equipment, tools and makes them reusable by loosening them. It is also used in lock and hinge systems.
Usage: It is applied directly to the surface by spraying method.

Force GRN Alkaline Cleaning Product For Sensitive Surfaces

It is a strong solvent-free oil solvent. It has no corrosive effect. It is effective on carbonized oils. It can be used safely on sensitive surfaces. It does not damage paint and metal. It is easily purged and does not give off bad odor and vapor during Application.
Areas Of Usage: It is used in the cleaning of tools and equipment That give effective results on all kinds of surfaces.

Force In Bright Aluminum Serpentine Cleaner and Polish

It cleans and shines oxidized and contaminated aluminum cores, filters, heating, and cooling surfaces from soot and dust in a very short time. It saves energy. It is safe because it does not contain acid. It is rinsed after application.
Areas Of Usage: It is a product suitable for use for heat transfer devices, ventilation filters.

FORCE ORANGE Hand Washing Liquid With Orange

It provides superior cleaning with its specially developed formula for hand-washed dishes. With its powerful cleaning feature, it cleans oil and all dirt without leaving any traces. Does not leave stains or marks on dishes. It smells of orange. It can be rinsed easily. Easily dissolves stubborn dirt with frozen oil and food residues

Force Bright New RINSING AND POLISHING PRODUCT FOR INDUSTRIAL DISHWASHERS

It is a concentrated dish rinse aid with foam control during dishwashing in the machine and controls the lime created by water hardness. Force Bright New is a concentrated, acidic bleacher. It has been formulated for a wide range of dishwashers. With the help of low foam level surfactants in its formula, it helps to dry without leaving traces on the surface of the containers washed and is excellent in foam control. It also contains substances that prevent calcification caused by water hardness. Thus, it protects the machine from calcification in medium and hard water.

Areas Of Usage: Special for industrial dishwashers.

Force Matic New Cleaner Product For Industrial Dish Washing Machines

Product Description: It is a liquid, concentrated dishwashing machine detergent specially formulated for effective stain cleaning in hard water. It is a heavy-duty alkaline detergent suitable for a wide range of single-tank and multi-tank dishwashers. The alkaline and lime control materials in its content are effective in cleaning stains. It is also effective against calcification as it contains high levels of lime control substances.

Areas Of Usage: In industrial dishwashers

Force SPR Solvent-Free Degreaser

Thanks to its special formula, it easily dissolves fat, blood and dirt in food facilities. It does not contain fragrances and solvents. It cleans the dirt on PVC epoxy and leather without damaging the surface and paint. Effective in cleaning animal and vegetable oils.

Force Heavy Grease Dissolvent

With its strong alkaline formula, it is an effective oil solvent for cleaning the oven, cleaning the burned oven trays, cleaning tarred soot, and cleaning hoods. It provides effective cleaning when used directly for cleaning the oven, grill, and frying pans. Force Heavy Grease dissolvent is a powerful degreaser suitable for periodic cleaning of food-related places And heavy oil deposits in the kitchen.

Force Soft Highly Active Concentrated Dish Washing Product By Hand

Product Description: Concentrated dishwashing agent that does not leave any residue with its strong oil dissolving feature, is easy to rinse, does not contain phosphate, and acts in all water conditions.

Force Degreaser And Dirt Remover

Thanks to its strong formula, it provides cleaning and shine on oily, dirty and washable surfaces such as kitchen counter, oven, cooker, grill, pans, pots, aspirators. It cleans oil stains and dirt without scratching the surfaces. It smells orange. Leaves a pleasant odor on cleaned surfaces. Used for cleaning all wipeable surfaces. Solves vegetable and animal oil residues and ensures easy cleaning of equipment.

FORCE TRW Concentrated Oven, Heat, and Burnt Oil Cleaner

Thanks to its strong formula, it is an effective oil solvent for cleaning the oven, cleaning burnt oven trays, cleaning tarred soot and hoods. Its effect will increase even more when diluted with hot water or if the floor to be applied is warm.

Force North DVN Foamy Liquid Hand Cleaner

It is a skin cleanser in cream bar form, suitable for the pH of the skin with its special formula. With its foamy form, it rinses easily and leaves no residue on the skin, and gives the skin a soft feeling. Thanks to its pleasant smell, it gives a feeling of cleanliness on the skin for a long time.

Usage: Used directly. Take enough product into the palm and rub it well, then rinse with plenty of water.

FORCE NORTH Antiseptic Liquid Skin Cleaner

It is a hand and skin cleanser product with antibacterial effect thanks to its special formula. Thanks to the preservatives it contains, it does not harm the skin while cleansing and leaves the skin-softening effect.

Usage: Used directly. Take enough product into the palm and rub it well, then rinse with plenty of water.

Force IN LIGHT General Cleaning Product With Lasting Scent

Product Description: It is a concentrated liquid cleaner that is used to provide deep cleaning and shine on floors and all surfaces without leaving traces and Adherence.

Areas Of Usage: Used for regular cleaning of Marley, rubber, plastic floors, Leather, fabric, all kinds of water-resistant items, painted and unpainted metals, wooden furniture, and all other hard floors.

Force GLASS EX Super-Concentrated Vitrified Surface Cleaner

Product Description: It is a super-concentrated cleaner that is used to provide deep cleaning and shine on all surfaces without leaving traces and adherence.

Areas Of Usage: It is used in areas such as all vitrified surfaces, glass, marble, polished surfaces.

FORCE Concentrated Carpet Shampoo And Polish

Product Description: It is a concentrated form shampoo suitable for deep cleaning of carpet and textile surfaces. It is suitable for sensitive textile surfaces such as wool. It has neutralizing technology that eliminates bad odors.

Areas Of Usage: Can be used on all kinds of textile and carpets.

FORCE IN AUTOMAT Alkaline Cleaning Product for Automats

High alkaline, floor cleaner product for restaurants, kitchens, food industry, etc. Used in the food industry, kitchen, and heavy industry floor cleaning. It is a perfume and dye-free product that removes animal and vegetable oil residues quickly and effectively. Its foam is controlled, it can be used in automats. Areas Of Usage: Used for cleaning large surfaces with automats. It leaves a nice smell after cleaning.

FORCE IN SHINE Concentrated Toilet, Bathroom, and Tile Cleaner

Product Description: It is a versatile concentrate cleaner for tiles, bathrooms, and toilets. It disinfects the used surface by reducing toilet odors, removes stubborn stains, mossy layers on canvases, soot, soap marks, lime, and water stains, and brightens the surface. Especially in chrome-nickel alloys, it takes oxidation in metals such as brass and copper and provides shine.

Areas Of Usage: It easily cleans rust and lime stains on surfaces such as toilets, sinks, and tiles. It cleans the dirt that occurs between tiles and joints without damaging the joint. It provides very effective cleaning and brightness in showerheads, armatures, shower cabins, and bathtubs. Provides long-term freshness in the cleaned environment with its permanent and pleasant odor. It is environmentally friendly. Does not harm the hand during use.

FORCE MULTI PURPOSE GENERAL CLEANING

It is used in all washable and wipeable surfaces' cleaning. It does not leave any stain behind and prevent the surfaces get mat. This is a very effective multi purpose cleaning product that can easily cleans the dirt and stains on the surfaces. Penetrates the dirt and cleans without leaving any stain or dirt behind. Leaves lovely smells on the cleaned surfaces.

FORCE GLASS CLEANER

It is used in hotels, factories, hospitals and homes' to clean glass or mirror that involved all shiny surfaces. It does not require to rinse. It can provide shine on all glassy surfaces quick and easily. It does not leave any stain or dirt behind and prevent the surfaces get mat.

FORCE DUST ANTISTATIC DUST COLLECTOR MATERIAL

Product description:

Usage areas: It is used in marble, tile, wooden and granite surfaces to clean dust.

FORCE GENERAL CLEANING

It is a liquid cleaner that provides hygiene and shine and cleans in depth all grounds and all surfaces without leaving any stain or stickiness behind. Alcohol based. It is volatile so it does not require to rinse. It does not scratch the surfaces and prevent the surfaces get mat. It is suitable for surfaces' daily cleaning and leaves lovely cleaning smell behind.

FORCE WOODEN CLEANER

It is used for all wooden and parquet surfaces' cleaning, polish and maintenance. It provides the best result on all wooden surfaces like parquets, wooden kitchen cupboards, wooden doors and window sills. With it's special form it provides very effective cleaning on all wooden surfaces. It prevents the surfaces get mat. It leaves lovely cleaning smell behind on cleaned surfaces.

FORCE WC BATHROOM CLEANER WC, BATHROOM AND TILE CLEANER

It is used in factories', houses' and offices' WC, bathroom and tiles cleaning that provides hygiene and effective cleaning. It shines the surfaces and destroys all limescale and water stains in one action. It cleans easily all rust and limescale stains from WC, sink and tile surfaces. It cleans tiles and joint gaps without harming it. It provides very effective cleaning and shine on shower heads, faucets, shower cabin and bathtub. It provides long time spaciousness and leaves lovely smell behind permanently.

FORCE NORTH RK ANTIBACTERIAL COLORLESS ODORLESS HAND WASHING LIQUID

It is a hand cleaning product with a special formula that owns antibacterial effect. It does not harm the skin while cleaning it and soften the skin because of it's preserver. Usage: It is applied directly. Take enough product into the palm and rub it well, then rinse with plenty of water.

FORCE HAND ORG ALCOHOL BASED LIQUID HAND HYGIENE PRODUCT

Product description: It is an alcohol based antiseptic liquid for hand disinfection and it's ready to use. Areas of usage: Schools, hospitals, farming companies, state agencies, slaughterhouses etc.

FORCE NORTH FOAM SUPER CONCENTRATED FOAM SOAP

It is suitable with skin pH with it's special formula. It does not dry the skin while cleaning it with it's special formula. It nourishes and soften skin with the gliserin inside. It makes you feel clean for a long time with the lovely smell.

FORCE NORTH ANTISEPTIC LIQUID SKIN CLEANER

It is a hand and skin cleaner product that owns antibacterial effect with a special formula. It does not harm the skin while cleaning it and soften the skin because of it's preserver. Usage: It is applied directly. Take enough product into the palm and rub it well, then rinse with Plenty of water.

FORCE NORTH DVN FOAMY LIQUID HAND CLEANER

It is a skin cleaner in a cream bar form and it is suitable with skin pH with it's special formula. It softens the skin and does not remain any dirt after washing. Thanks to it's foamy form it is easy to rinse. It makes you feel clean for a long time with the lovely smell.

Usage: It is applied directly. Take enough product into the palm and rub it well, then rinse with plenty of water.

FORCE NORTH CT ECONOMIC TYPE LIQUID SKIN CLENAER

It is a skin cleaner in a liquid form and suitable with skin pH with it's special formula. It softens the skin and does not remain any dirt after washing. It is easy to rinse.

Usage: It is applied directly. Take enough product into the palm and rub it well, then rinse with plenty of water.

FORCE ORGANIC ORGANIC ACIDIC CLEANER

Thanks to its special formula, it is a biodegradable natural acidic cleaner. It easily cleans oil, rust, and lime from sensitive and painted surfaces without damaging the surface. It is a foamy cleaner and can be rinsed easily. Suitable for solar panel cleaning.

Usage: It is used by diluting with water in 1/5 to 1/30 weight according To surface contamination. It is applied by spraying and wiping method and rinsed.

FORCE ORGANIC SOLAR ORGANIC FOAM CONTROLLED ACIDIC CLEANER

Thanks to its special formula, it is a biodegradable natural acidic cleaner. It easily cleans oil, rust, and lime from sensitive and painted surfaces without damaging the surface. It is a foam-controlled cleaner and can be rinsed easily. Suitable for solar panel cleaning.

USAGE: It is diluted with 1/5 to 1/30 water according to the surface contamination. It is applied by spraying and wiping method and rinsed.

FORCE IN PINK ALCOHOL BASED GENERAL CLEANING PRODUCT

Product description: It is a general purpose surface cleaner with alcohol based. FORCE IN PINK is a general cleaning product with lovely smell and does not leave any stain behind.

Usage areas: It is a product that can easily penetrate to clean dirt and stain on all hard surfaces. It cleans all dirt and stains that does not affect from water and washable surfaces. It is used in regular cleaning for all hard surfaces like marley, rubber, plastic floor, leather fabrics, any goods and stuff that does not harm from water, painted or unpainted metals and wooden furnitures.

FORCE LIGHT SUPER CONCENTRATED GENERAL CLEANING PRODUCT

Product description: It is a unique product because of wide range of uses and it cleans all washable surfaces very effective and quick. It can be replaced for many cleaning products. It is very economical because of it's concentrated. It is used on a lot of different surfaces like laminate floor, table, computer, closet, satin wall, chair, glass, fridge, door etc. It is biodegradable.

Usage areas: It is used in regular cleaning for all hard surfaces like marley, rubber, plastic floor, leather fabrics, any goods and stuff that does not harm from water, painted or unpainted metals and wooden furnitures.

FORCE ROOM PERFUME CONCENTRATED ROOM AND LAUNDRY PERFUME

It is used to remove disturbing odors from the environment thanks to its permanent odor. In addition, it is applied directly to the clothes and helps the laundry to smell nice for a long time. Different fragrance alternatives are available.

FORCE IN LIGHT PERMANENT PERFUMED FLOOR CLEANER PRODUCT FOR AUTOMATIC AUTOMATS

PRODUCT DESCRIPTION: It is a dirt oil cleaner suitable for use for cleaning all washable and wipeable hard floors and for automats. It is a concentrated floor cleaning product with permanent perfume, which is used for daily cleaning of surfaces, with a foam-controlled, acid and alkali-free, neutral, soap content. **Areas Of Usage:** It is used for wide surface cleaning of automats. Leaves a pleasant scent after cleaning

FORCE SOFTENERSUPER CONCENTRATED LAUNDRY SOFTENER

With its special formula, it provides excellent softness and shine on laundry and towels, prevents wrinkles, accelerates drying process, and leaves a pleasant smell for a long time thanks to its permanent perfume.

FORCE POWER LIQUIDLIQUID LAUNDRY DETERGENT WITH ENZYME

It is produced by using nature-friendly raw materials in its special formula. It is permanent and fragrant. It does not leave any residue on the cleaned clothes, it does not require the use of softener by providing extra softness in the laundry

FORCE NX 3519 STAINLESS STEEL CLEANERAND POLISHER

It polishes and cleans stainless steel and inox surfaces with its special formula. It is used for cleaning and shining industrial kitchens, cleaning and polishing elevator cabins. It provides a permanent shine by delaying the formation of fingerprints after cleaning.

FORCE SHINE GRANIT GRANITE CLEANER AND POLISH

Thanks to its special formula, it provides perfect cleaning and shine on all surfaces that are not affected by polished and shiny water on granite floors. With its antistatic structure, it delays the dust retention of the surface, does not damage the surface and leaves no traces, and also extends the life of the polish on polished surfaces.

FORCE FC 35 A QUARTERNER AMMONIUM BASED CLEANING AND HYGIENE MATERIAL

It is a hygienic concentrated cleaning agent containing QAC and alcohol in its structure developed for cleaning and hygiene of surfaces not affected by water. It is a concentrated cleaning product developed to kill germs and bacteria on the surface. It is used to provide hygiene in cleaning walls, surfaces, tools and equipment.

USAGE: It is diluted in a ratio of 1:10. It is suitable for use with wiping or spraying system. It is sprayed to the surface with pressurized machines at high temperatures (maximum 65 degrees) for maximum efficiency. If needed, a brush can be used for mechanical cleaning. It does not require rinsing.

FORCE TEAT FOAM FOAMY TEAT CLEANER BEFORE MILKING

It is a teat cleaner before milking. Thanks to its high foam, it provides easy cleaning of the dirt in the teat. In addition, the effective ratio of glycerin in its content has a formulation prepared to keep the teat soft. The softening of the teat tissue ensures that it is not damaged during milking.

USAGE: Do it in a way that cleans the whole teat. After the application with Teat foam, clean the dirt that comes out with disposable tissue paper or a clean teat cleaning cloth.

FORCE FARM 123 ALKALI CIP CLEANING PRODUCT

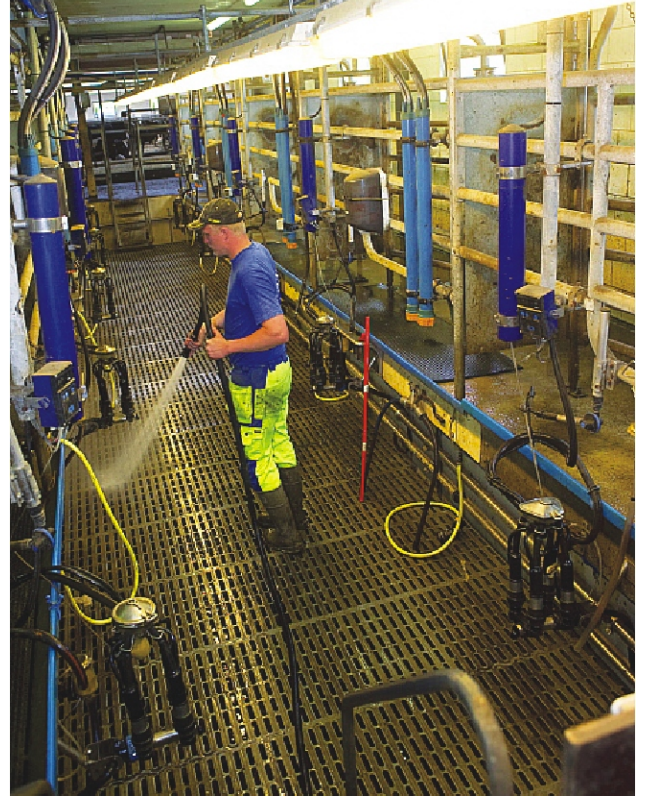

It is a chlorine-based, closed system alkaline cleaning and hygiene product. It is an alkaline cleaning product with an inhibitor, developed for closed systems (pipes, tanks, tankers, pasteurizers, and homogenizers) especially in the food sector where dirt and oil are present. It is used for cleaning and hygiene of milking systems and milk tanks after morning and evening milking.

USAGE: For closed milking systems, 0.5-2% concentration, 500-2000 ML product for 100 L. water. For portable milking systems; At 2% concentration, 200 ML of product is circulated in 10 L water for 20-30 minutes at 50-60 degrees. Afterward, the rinsing process is started.

FORCE PVP MAST AFTER SAFETY BREAST HYGIENE PRODUCT

It is a povidone-iodine-based, glycerine-containing ready-to-use hygienic product that helps prevent mastitis and protects skin health in the teat with the glycerin it contains. It forms a thin layer that can be seen on the teat.

USAGE: It is applied on the teats with a dipping container or by rubbing it after milking.

FORCE FARM 122 ACIDIC CIP CLEANER

It dissolves the deposits caused by milk stone and water hardness. Thanks to the active ingredients it contains, it is a concentrated acidic cleaning product with inhibitors and has effective cleaning properties. It should never be used with products containing chlorine. It can be rinsed easily. It leaves no stains or marks.

USAGE: For closed milking systems, at a concentration of 0.5-1.5%, 500-1500 ML of product in 100 L water is circulated for 20-30 minutes at 40-50 degrees. Afterward, the rinsing process is started.
